Lake County Health Department's
Community Health Center

WHAT CAN YOU DO IF YOU HAVE QUESTIONS?

We are staffed with counselors/health educators who will be happy to answer your questions over the phone anonymously (you do not need to give us your name).

Make an appointment to test for HIV. A counselor/health educator will answer your questions prior to testing or examination for HIV or sexually transmitted diseases (STDs).

Everyone who comes through the STD clinic will also have the opportunity to speak to a counselor/health educator prior to any examinations.
